## Profile

A detail-oriented and enthusiastic Junior Software Developer currently working at M Data Zone SA Pvt Ltd. Skilled in developing, testing, and maintaining software applications, with a strong passion for learning new technologies and improving development efficiency. I thrive in collaborative environments and take pride in delivering clean, efficient, and reliable code.

## Professional Experience

### **Junior Software Developer, M Data Zone SA Pvt (Ltd)**

07/2025 – Present

colombo sri lanka

#### **Business Website Development (Next.js + Payload CMS)**

- Developed a fully responsive business website using Next.js with pixel-perfect UI based on provided designs.
- Built secure backend communication using Payload CMS and custom API endpoints.
- Implemented a complete authentication system including JWT (bearer & self-signed tokens), refresh tokens, federated tokens, OTP-based auth, and API tokens.
- Ensured optimized performance, SEO, and clean modular code following industry best practices.

#### **Custom WordPress Backend Logic (PHP Plugin Development)**

- Refactored complex backend logic into a custom WordPress plugin using PHP.
- Improved maintainability and reusability by modularizing business logic.
- Enhanced performance, security, and ensured compatibility with WordPress standards.

#### **E-commerce Website Development (WordPress + WooCommerce + Elementor)**

- Built an e-commerce website using WordPress, customizing WooCommerce and Elementor for client requirements.
- Developed and extended website functionality via two custom plugins using TypeScript, PHP, and JavaScript.
- Integrated product management, checkout customization, and UI enhancements for a seamless user experience.

### **Software Engineering Intern, Sri Lanka Export Development Board**

05/2024 – 11/2025

Colombo

#### **Website Enhancements ([actionplan.edb.gov.lk](http://actionplan.edb.gov.lk) )**

- Added new features to the website using Laravel, managing both backend and frontend development.
- Updated and improved user account management functionalities.

#### **Mobile App Development ([crm.edb.gov.lk](http://crm.edb.gov.lk) )**

- Developed a React Native mobile application replicating the CRM system's web functionality.
- Integrated all core CRM features to ensure seamless cross-platform experience.

#### **Website Development ([wed.edb.gov.lk](http://wed.edb.gov.lk) )**

- Designed and developed a Laravel-based website with a user-friendly interface for EDB staff.

- Implemented backend functionalities for secure user management and access control.

## Education

---

**Bachelor of information and communication technology (BICT) Honours**

2020 – 2025

**Degree (specialized in software technology), University of Sri Jayawardhanapura**

pitipana,homagama
